About Us

Nurse Pro-Care is a multi culturally-diverse group of health care professionals who consider their clients as families and also as extended relatives. This view is applied in every level of service we provide. We care with a deep compassion and concern as we would for our own families.

Upon admitting you or a loved one for services, we go to your homes and identify risks which must be addressed in the making of a personalized care plan. A Registered Nurse supervises the maintenance of care.

Your health condition is the prime basis on deciding for the best approach for your care. Your attitude, taste and preferences are highly considered by our team. With us, you are comfortable with our dedicated caring, patience and kindness.

We match our caregivers' experience to your needs. We are very responsive and concerned about your care, and always ready to assist you anytime when needed.
